Selinnur Efe

Frontend Developer

selinnur1efe@gmail.com İstanbul, Türkiye linkedin.com/in/selinnurefe github.com/selinnurefe selinnurefe.com

SUMMARY

Frontend developer building workflow-heavy, data-dense B2B SaaS interfaces with React, Next.js and JavaScript. I bring the process discipline of a textile engineering and fashion product development background into the UI.

EXPERIENCE

Frontend Developer Aug 2024 – Present
Unilise · AI-powered recruiting platform · multi-module B2B SaaS

- I build the interfaces for candidate management, parsed CV data, AI-assisted evaluation, scoring and detailed result views.
- I build configurable experiences: dynamic candidate forms, OTP verification, hiring stages, document and offer flows.
- Video interview flow: device checks, instructions, preparation time, timed questions, recording states and retry permissions. On the recruiter side, review screens for recordings, transcripts and AI summaries.
- I build customisable career pages and reporting screens.
- I settle API integration and data needs with the backend team, working in Agile/Scrum.

Buying Assistant · Boys' Knitwear Nov 2023 – Jul 2024
LC Waikiki · Fashion retail

- Worked as a buying assistant for the boys' knitwear category.

Buying Development Assistant · Men's Knitwear Dec 2022 – Nov 2023
Mavi · Fashion retail

- Analysed customer needs and worked with designers and suppliers through the technical and design development of products.

Category & Buying Development Intern Aug 2022 – Dec 2022
Mavi · Fashion retail

- Internship in the category and buying development team.

PROJECTS

Santa Food. QR menu and WhatsApp ordering flow. Next.js, React.

Café Reservation System. Multi-step reservations and an admin panel. JavaScript, Node.js.

SKILLS

Core
React · JavaScript (ES6+) · Next.js · Tailwind CSS · HTML & CSS · REST APIs · Git & GitHub
